THE IMPRESSIONIST M
AND LEGACY

Introduction

Impressionism was not born out of
comfort but out of frustration with a
world that resisted change. By the m
nineteenth century, France stood as
the artistic capital of Europe and the
center of cultural conservatism. The
artists who would become known as
Impressionists—Monet, Renoir, Piss
Morisot, Degas, and others—lived
through a period of immense politic
upheaval and industrial progress. Pa
was being rebuilt, photography was
redefining representation, and scien
was uncovering new truths about cc
and light. Amid all this transformati
they sought a new language for
painting—one that could record not
the appearance of the world, but the
experience of seeing it.

The word 'Impressionism' itself was
used mockingly. When Claude Mone
exhibited his painting 'Impression,
Sunrise' in 1874, a critic sneered tha
was little more than an impression,
unfinished sketch. The artists adopt
insult as a badge of honor. They wer
indeed trying to capture impression
the immediate sensations of light,
atmosphere, and movement that def
how we perceive the world. Theirs v

Document Structure 3 issues

Add PDF accessibility metadata (PDF/UA)

What we found: Missing PDF/UA metadata identifier.

How to fix: Include PDF/UA identifier metadata on remediation output.

Page - Medium priority · Can be auto-fixed

Technical reference: DOC-001 • WCAG 4.1.2 Name, Role, Value

Add accessibility tags to the document

What we found: Document is untagged (no StructTreeRoot found).

How to fix: Generate a complete semantic tag tree.

Page - High priority · Can be auto-fixed

Technical reference: DOC-002 • WCAG 1.3.1 Info and Relationships

Set the document language

What we found: Document language is not set.

How to fix: Set /Lang in the catalog.

Page - Medium priority · Can be auto-fixed

Technical reference: DOC-003 • WCAG 3.1.1 Language of Page

Metadata & Navigation 2 issues

Add subject metadata

What we found: Document subject metadata is missing.

How to fix: Set document subject metadata.

Page - Lower priority · Can be auto-fixed

Technical reference: META-001 • WCAG 2.4.2 Page Titled

Set tab order to follow structure

What we found: Cannot confirm structure-based tab order.

How to fix: Set page tabs to follow structure order (/Tabs /S).

Page - Medium priority · Can be auto-fixed

Technical reference: META-002 • WCAG 2.4.3 Focus Order

Remediated document report

100% Accessibility Score

Excellent

Accessibility Score is based on this app's checks. Review the external verification panel for the PDF/UA standard result (PDF/UA means "Universal Accessibility").

No issues found

- ✓ Document Structure

No issues identified.

Tables 1 issue

Tag visual tables as real tables

What we found: Detected 18 tabular layout(s) without semantic table tags.

How to fix: Add Table, TR, TH, and TD tags so screen readers can convey row/column relationships.

Page 1 Medium priority Can be auto-fixed

Technical reference: TBL-002 • WCAG 1.3.1 Info and Relationships

Headings & Structure 1 issue

Add headings to organize the document

What we found: No headings detected in multi-page document.

How to fix: Add section headings.

Page - Lower priority Can be auto-fixed

Technical reference: HDG-002 • WCAG 2.4.6 Headings and Labels

Links & Navigation 1 issue

Add bookmarks for easier navigation

What we found: Long document is missing bookmarks/outlines.

How to fix: Generate outline entries from headings.

Page - Lower priority Can be auto-fixed

Technical reference: LNK-002 • WCAG 2.4.5 Multiple Ways

PDF accessibility standard check (veraPDF)

veraPDF is an open-source tool that checks whether a PDF meets the PDF/UA standard (PDF/UA means "Universal Accessibility").

These results are for the remediated PDF generated after automated fix attempts.

Standard checked: not reported

Automatic fix attempts: 3

veraPDF verification failed (413)

Process stopped: reached the maximum number of attempts.

What To Do Next

Use this checklist to finish manual fixes after automated remediation.

Accessibility Score is this app's ruleset. veraPDF status is an independent check against the PDF/UA standard (PDF/UA means "Universal Accessibility").

1. Upload the updated PDF after manual edits Medium priority

Automation stopped after reaching the maximum number of remediation passes. If you use Acrobat, fix issues in Tags and Accessibility Checker. If you edit in Word or PowerPoint, update the source file, export a new PDF, then re-upload. Once you make changes, upload the revised file to run remediation and verification again.

2. Run one final verification before publishing Follow-up

After manual updates, upload the revised PDF and confirm both the Accessibility Score and veraPDF result improve.

Publishing readiness: Ready for manual final review

Ready for manual final review. Download the updated PDF and perform your normal spot-check before publishing.

Download Your Updated PDF

Use this file for manual review and publishing once your remaining checklist items are complete.
